-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### ***Specification***

The abstract of the disclosure is objected to because it does not adequately indicate that the claimed invention is to the structure of the single cell window covering. Correction is required. See MPEP § 608.01(b).

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed. Again, the title does not reflect that the recited invention is to the structure of a window covering.

### ***Claim Rejections - 35 USC § 112***

Claims 15-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the term "type" renders the meaning of "single-cell column" indefinite. In line 5, the recitation of "the structure" is ambiguous since "the structure" referred to, in line 3, is part of a "starting product" and not the actual device being claimed. In line 7, "columns" (plural) is indefinite over the initial recitation of "A single-cell column" (singular). In the last paragraph, "selected ones" (plural) of internal ligaments are initially recited followed by "eliminating at least one of the individual cells". This is indefinite since the severing of a plurality of ligaments would establish more than "one", which is encompassed by "at least one", cell. Lastly, the phrase "are severed", used throughout the claims, may be interpreted more as a method step than a structural limitation, which would be improper in the context of these article claims.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 15 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Colson et al '750.

See Figs. 32A and 32B. The topmost "internal" ligaments are severed at lines 902,904, while others are left intact.

***Allowable Subject Matter***

Claims 16-21 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
